

Help us to be here for our community.

Everyone will face their end of life. We all hope to be cared for and die in our place of choice. While it may be a daunting prospect, we want to ensure that people, when faced with this situation, have the resources and support they need.

About Ballarat Hospice Care

We are a team of specialist palliative care nurses, supportive care advisors, patient and family support volunteers, and compassionate administration and support staff. We assist people with a life-limiting illness to stay at home; and support the carers, friends and family who help care for them.

Established by community members in 1985, our not for profit organisation has guided patients, and supported carers and families to live, die and grieve well.

We make a difference, and you can too

We deliver our services at no direct charge to the patient which means we rely on generous donations and financial contributions to grow our services and ensure we are here caring for people into the future.

When you donate to us, you are enabling someone to live and die as they choose and giving family and friends comfort and support at a difficult time.

Visit our website to learn more about volunteering, becoming a guardian of our service, donations and bequests.
